**MURPHY'S**

*A Munster Motor Cycle and Car Club Promotion*

## *President's Welcome*

*As President of the Munster Motor Cycle & Car Club, it is my pleasant duty to welcome you to the National Vintage Motorcycle Assembly. I want to extend a very special welcome to our overseas competitors and I hope you all enjoy your visit to Kenmare.*

*Sadly, we are without one of our most valued and treasured members. Just a few short months ago Michael O'Mahony died, leaving a great void in the Vintage & Veteran section of the club.*

*Michael with the help of his wife Eve and his daughters, Lynda and Avril, elevated this event to a high plateau, making it one of the best in Europe. He had a great insight and vision for the sport.*

*His unstinting work as Clerk of the Course for this event was unprecedented and he has set high goals for those who follow. The M.M.C. & C.C. was a major part of his life and there is no doubt that he will be remembered fondly for his outstanding work in promoting this event.*

*I would like to wish our new Clerk of the Course, Morgan O'Regan, every best wish as he takes over at the helm of this prestigious event. Finally I wish everyone an enjoyable and safe event.*

We offer a very special thanks to our Main Sponsors:

**HEINEKEN IRELAND**

And last, but by no means least, to the competitors from far and near, without whom there would be no Rally.

---

The machines listed in this programme provide unique opportunity to study the development of the motor cycle from its infancy to the fully grown up machine of to-day.

Most of the details of the machines and riders have been supplied by the riders themselves. The Munster Motor Cycle and Car Club, whilst confident of the knowledge and modesty of the competitors, cannot accept responsibility for the accuracy or otherwise of the information.

Neither can the Club accept responsibility for any accidents injury or damage to spectators. Please give the riders plenty of room at all times, especially when they are starting their machines by the time honoured "run and bump" method.
