## *Greetings from the Clerk of the Course*

*On behalf of the Rally organising committee and myself, it gives me great pleasure to welcome you all, to this our 38th Irish National Vintage Motorcycle Assembly.*

*The Munster Motorcycle and Car Club has traditionally catered for all types motor sport, Cars, Karting, Motocross as well as Veteran and Vintage motoring. This year our club has reached a crossroads and has now divided into four separate clubs, each catering for their own specific interests.*

*Our new club will be "The Munster Vintage Motor Cycle & Car Club".*

*We want to assure you that in our new club we will be continuing as before, holding our events on the same dates and in the same format and we look forward to your continued support for many years to come.*

*I would like to take this opportunity to thank our sponsors and to ask you to support them, not alone during the Rally, but also during the rest of the year.*

*We also have had a long association with the Kenmare Bay Hotel, and I would like to thank Terry O'Doherty and his staff for their hospitality down through the years.*

*Finally, thank you all for coming and I hope you have enjoyable and safe motoring on the 38th rally.*

We offer a very special thanks to our Main Sponsors:

**HEINEKEN IRELAND**

And last, but by no means least, to the competitors from far and near, without whom there would be no Rally.

---

The machines listed in this programme provide unique opportunity to study the development of the motor cycle from its infancy to the fully grown up machine of to-day.

Most of the details of the machines and riders have been supplied by the riders themselves. The club, whilst confident of the knowledge and modesty of the competitors, cannot accept responsibility for the accuracy or otherwise of the information.

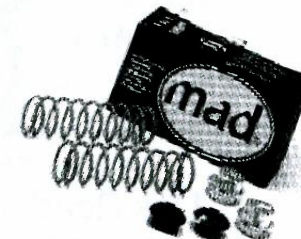

Neither can the Club accept responsibility for any accidents injury or damage to spectators. Please give the riders plenty of room at all times, especially when they are starting their machines by the time honoured "run and bump" method.
